Boxing unboxing
SDLC/STLC
QA & QC
verification/validation
In SDLC where QA involves
Grey box testing
Black box testing
White box testing
Smoke
Sanity
Regression and retesting
Validation and. Verification
Test case
Test scenarios
Scrum
Traceability matrix
Unit testing
Integration testing
Alpha beta testing
Sdlc and stlc
Test cases for login and whatsapp recording button
Basic concept of automation
Load and stress testing
Semester projects
Fyp
Why sqa
Limitations of automation
1- QA & QC
2- API testing
3- Rest & Soap API

4- pointer/variable
5- SDLC/STLC
6- verification/validation
7- In SDLC where QA involves
8- Grey box testing
Black box testing
White box testing

What is functional testing
what is non functional testing
types of functional and non functional testing
what is test case
QA vs QC
STLC
SDLC
role of QA throughout SDLC
● if a developer made a module and tested it himself, what type of testing is performed here?
●Given a box of tissue. keep in mind 2 phases
1. the box is in manufacturing phase
2. the box is made.
now tell in which phase QA will be performed and in which phase QC will be performed.?
Candidate,Primary and Foriegn Key
Can Foreign Key be Null?
Indexes in DB?
Stored Procedure
A case study was given and we had to design a database for it. Detailed ERD, relationships among entities, mapping erd to SQL tables, basic queries to check for the loopholes in the design.
